THE MATH

Do the math on a $150,000 sale.

Way to sell	What you pay	You keep
Traditional agent at 6% commission	$9,000	$141,000
GoOnMLS.com flat fee	**$99**	**$149,901**

That's $8,901 more in your pocket — for the same MLS exposure. Your listing goes on MyStateMLS, the nationwide MLS, syndicated to 135+ listing sites including Google. Buyers shopping online see your home right next to agent-listed homes.

How it works

1. **Sign the flat-fee agreement.** One page, plain language, no commission — ever.
2. **Pay one flat fee.** $99, $1,999, or $6,999. The number you see is the whole price.
3. **Tell us about your home.** A 15-minute intake form — details, up to 20 photos, your video link.
4. **We list it on the MLS.** Live within days, working for you on 135+ sites around the clock.

STRAIGHT ANSWERS

Questions sellers ask us.

Will buyers actually find my home?

Yes. Your home appears on the same 135+ listing sites agents' listings appear on — including Google. Buyers can't tell a flat-fee listing from a full-commission one.

Do I need a real estate agent?

No. You set the price, you talk to buyers, you accept the offer. If you want help with paperwork, the $1,999 tier covers it.

My home is in a park. Does that matter?

Not for the listing — we list park homes every day. Your buyer will need the park's approval to keep the home on its lot, and we'll tell you exactly how that works.

Are there hidden fees?

No. The number you pick — $99, $1,999, or $6,999 — is the whole price. No percentages, no closing surprises.

How fast can my home be listed?

Once we have your details and photos, your listing typically goes live within a few business days.
